American Kompromat is "the counterintelligence that was promised by the Mueller Report but which failed to materialize" - Journal of Cyber Policy

Craig Unger's bestseller, *American Kompromat*, shows that something much more sinister has been taking place than the public could ever imagine—that from Donald Trump to Jeffrey Epstein, kompromat operations documented the darkest secrets of the most powerful people in the world and transform them into potent weapons.

American Kompromat is based on extensive, exclusive interviews with dozens of high-level sources—Soviets who defected from the KGB, former officers in the CIA, FBI counterintelligence agents, lawyers at

white shoe Washington firms—and analysis of thousands of pages of FBI investigations, police investigations, and news articles from across the globe.

Is Donald Trump a Russian asset? How could such an audacious feat have been accomplished? Craig Unger will answer these questions and more by explaining the operations that amassed compromising information on the richest and most powerful men on earth.
