The world is awash in a deluge of dangerous conspiracy theories. Most notoriously, the bizarre QAnon fantasy postulates that a global child sex-trafficking ring is being run by liberal, Satan-worshipping pedophiles whose plot will be uncovered by President Donald Trump on a “day of reckoning” involving mass arrests.

One of the most harmful results of these bogus conspiracy theories is that they help deflect people’s attention from the real conspiracies that are systematically damaging billions of people around the world, destroying the living Earth, and—if left unchecked—may drive our entire civilization to collapse.

Jeremy Lent will explain and analyze 5 real and damaging conspiracies that we all should know about such as:

- 1) Conspiracy to turn the world into a giant marketplace for the benefit of the wealthy elite,
- 2) Conspiracy by transnational corporations to turn billions of people into addicts,
- 3) Conspiracy to plunder the Global South for the benefit of the Global North,
- 4) Conspiracy to hide the effects of climate breakdown for corporate profit, and

5) Conspiracy to grow the global economy indefinitely, while killing most of life on Earth and risking the collapse of civilization.
